

Danielle Calderwood
Joined Board 2023

I am a local South Lanarkshire resident and joined the Board in November 2023. I previously studied Environmental Management at Caledonian University and currently work as a Community Energy Advisor at Elderpark Housing Association. Within my current role I specialise in tackling fuel poverty by advising and supporting people with energy related issues. I joined the Board as I am interested in the work of the Association and for learning development opportunities.
