I have lived in EK for over 30 years, my family having been brought up here and attended local schools. One of my daughters is an EKHA tenant.

My work background includes the Merchant Navy and the Police, where I served for 30 years in a huge variety of roles, attaining senior management command level. During this time I also served within local authorities, and with Government, developing many services tackling antisocial behaviour.

I have served on boards in the leisure industry, services for the disabled, and community safety CCTV services.

Having retired from the Police over ten years ago, I now work part time for the SFA and SPFL, the UK Border Force, and as an exams invigilator in a local High School. I also sit on the board of Healthy and Active in East Kilbride.

I joined the board of EKHA to continue to use the skills and experience I have gained over many years in public service, for the benefit of others.
